

## INFORMATION PACKAGE

In 1986, we started producing rough cut lumber on a small piece of land severed from the Herwynen family farm.

When we began manufacturing hardwood flooring at the Herwynen Saw Mill, it was our mission to consistently produce the highest quality wood flooring available, aiming to always provide unsurpassed craftsmanship and value in each piece of hardwood flooring we manufacture.

Our core philosophy is **QUALITY ABOVE ALL ELSE.** 

Today we employ nearly 100 people and distribute to **over 150 distributors and retailers across North America,** all while still holding the same core values and passion to create quality flooring.

History, experience & dedication create hardwood floors of the HIGHEST QUALITY.

## SUPERIOR RATED

NWFA's NOFMA certification provides an assurance that your wood flooring meets or exceeds industry standards for average board length, grade, configuration and moisture content. The process ensures that each piece of hardwood flooring leaving the mill meets the high standards for NOFMA certification.

Our manufacturing facilities are required to be inspected twice a year by accredited and specially trained inspectors in order to be certified through the NWFA-NOFMA program.

We offer a 35 year warranty on the wear layer of pre-finished flooring, and a lifetime structural warranty.

Our Engineered and Enhanced products are made with real wood and have a thick wear layer; providing more resilience and the ability to refinish in the future.

### SUPERIOR LENGTHS

Longer board lengths are a sign of quality in any hardwood floor creating a beautiful room with fewer joints. Our board lengths far exceed that of our competitors reaching up to 90" long.

#### SUPERIOR GRADING

The key to a great looking floor is in the consistency and uniformity throughout the grading. We purchase the highest quality lumber and maintain a strict criteria during the grading process.

## SUPERIOR GRADES

# SUPERIOR PRODUCTS

Our passion is to always produce the highest quality flooring by utilizing the most advanced milling practices and investing in innovative new technologies.

### **SOLID HARDWOOD**

Manufactured from a single piece of hardwood.

**APPLICATION:** Above grade

RANDOM BOARD LENGTHS: 10" to 90"

AVAILABLE IN: Smooth | Wire-brushed | Hand scraped

**SPECIES:** Red Oak | Maple | White Oak | Ash | Hickory

## **ENGINEERED HARDWOOD**

A solid Baltic Birch core and a 4mm hardwood wear layer provides increased strength.

**APPLICATION:** Above grade | Condos | Basements **Safe for concrete, radiant heat** and wood substrates.

RANDOM BOARD LENGTHS: 10" to 90"

AVAILABLE IN: Smooth | Wire-brushed | Hand scraped

**SPECIES:** Red Oak | Maple | White Oak | Ash | Hickory

### **ENHANCED HARDWOOD**

**THE ONLY 3-PLY** engineered product available on the market containing a quarter-sawn solid hardwood core and base. The solid wood structure reduces the chance of warping.

**APPLICATION:** Above grade | Condos | Basements **Safe for concrete, radiant heat** and wood substrates.

RANDOM BOARD LENGTHS: 10" to 90"

AVAILABLE IN: Smooth | Wire-brushed | Hand scraped

**SPECIES:** Maple | White Oak | Hickory

#### **TOP COAT**

High quality UV cured finish layer, providing maximum scratch and wear resistance.

#### **SURFACE LAYER**

Top layer is composed of a 4mm solid hardwood surface lamella.

#### **SOLID CORE LAYER**

High density solid hardwood glued perpendicular to adjacent layers for added stability with a quarter-sawn core.

#### **BASE LAYER**

The laminated quarter sawn base provides the only true 3-ply engineered product available today.

## SUPERIOR TEXTURES & FINISHES

#### Three Textures, Endless Style

Texture adds a different dimension of character to the floor. Our hardwood flooring products are available in three textures, across a variety of hardwood species. Combining texture and widths with various sheen levels, there is a seemingly endless array of style combinations to choose from.

# WE'RE CLEAR ABOUT WHAT MAKES A SUPERIOR FLOOR

#### Water Clear™ Finish

Our innovative water-based stains provide a durable, crystal clear finish that brings out the wood's natural character unlike our competition who hide poor quality lumber behind UV oil-based stains.

Wood absorbs the stain colour which **ENHANCES** the natural colour and texture

**TOUGH** and **FLEXIBLE** finish that can handle the natural movement of wood and everyday wear

Water-based and virtually NO VOC'S
